

Embedded Bar Code Readers

APPLICATIONS

- Chemical and biomedical analysis machines
- ATM (Automatic Teller Machines)
- Print & Apply systems
- OEM integration in automatic machines

ADVANTAGES

- Extended product applicability in high throughput processes thanks to a scanning speed up to 500 scans/s
- Excellent performance on high resolution codes with reduced minimum reading distance
- The motor can be switched on and off via software commands depending on application needs
- Allows flexible installation thanks to compact dimensions and direct/90° reading window options

HIGHLIGHTS

- Cost effective
- Very compact dimensions
- Direct and 90° reading window models for smart mounting
- Wide reading field at a short reading distance
- Motor on/off control via software commands
- Dual serial interface
- Scanning speed up to 500 scans/s
- Light weight (< 100g / 3.53 oz. without cable)
- IP65 (NEMA 4) protection class

GENERAL DESCRIPTION

DS1100 is specifically designed to be easily integrated in OEM equipments: very compact dimensions, light weight, direct and 90° reading window models availability allow flexible mounting and positioning in narrow spaces. DS1100 is ideal for use in chemical and biomedical analysis machines, pharmaceutical code analyzers, automatic teller machines, printing systems, video rental and film processing machines. It can also be used on assembly lines, as well as simple work in progress and quality control applications.
